

Low thermal Conductivity Dense Zircon Brick For High Temperature Applications

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Corrosion Resistance: High
- High Corrosion Resistance: They Are Resistant To Attack By Molten Glass And Other Corrosive Chemicals.
- Low Thermal Conductivity: They Help To Insulate Furnaces And Kilns, Reducing Heat Loss.
- Compressive Strength: 50-200MPa
- Improved Product Quality: Yes
- Flexural Strength: $\geq 10\text{MPa}$
- Application: Furnace, Kiln, Incinerator, Etc.
- Chemical Composition: High, Medium, Low

Product Description

Product Description:

Made with high-quality zircon, our zircon bricks are available in a variety of colors, including white, yellow, brown, and more. They offer exceptional strength and durability, with a compressive strength that ranges from 50-200MPa. With a true density of $\leq 2.33\text{G/cm}^3$, these bricks offer excellent resistance to heat and wear, making them ideal for use in a variety of industrial applications.

Whether you're looking for refractory bricks for your furnace, kiln, or other high-temperature application, our zircon bricks are the perfect solution. They offer superior resistance to corrosion and wear, ensuring that your equipment stays in top condition even under the most extreme conditions. And with their low thermal expansion, they can withstand rapid changes in temperature without cracking or breaking.

So why wait? Order your zircon refractory bricks today and experience the superior quality and durability that only zircon brick can offer!

Features:

Product Name: Furnace Refractory Bricks

Strength: High

Material: Silica, Alumina, Magnesia, Zirconia, Etc.

Excellent thermal shock resistance: They can withstand rapid changes in temperature without cracking or spalling.

Color: White, Yellow, Brown, Etc.

Feature: High Temperature Resistance

Types: zircon brick, dense zircon brick, zircon refractory bricks

Technical Parameters:

Product Category	Furnace Refractory Bricks
Material	Silica, Alumina, Magnesia, Zirconia, Etc.
Chemical Composition	High, Medium, Low
Moisture Content	Low
Packing	Wooden Pallets Or Cartons
Improved Product Quality	Yes
Feature	High Temperature Resistance
Strength	High
Excellent thermal shock resistance	They can withstand rapid changes in temperature without cracking or spalling.
High corrosion resistance	They are resistant to attack by molten glass and other corrosive chemicals.

Applications:

The Rongsheng Xinwei Furnace Refractory Bricks are made from a variety of materials, including silica, alumina, magnesia, zirconia, and more. These bricks are ideal for use in furnaces, kilns, incinerators, and other high-temperature applications. They are suitable for use in a variety of industries, including metallurgy, power generation, chemical engineering, and more.

Whether you need zircon brick, magnesia brick, or any other type of refractory brick, Rongsheng Xinwei has you covered. These bricks are available for purchase with a minimum order quantity of 1 ton and prices ranging from 200-800USD. Payment terms include TT and L/C, and supply ability is 2000 tons per month. Delivery time is typically 20-30 days, and packaging includes wooden pallets with water-proof coverings and plastic/steel bandages.

Overall, the Rongsheng Xinwei Furnace Refractory Bricks are a top-quality choice for anyone in need of high-temperature insulation materials. With their excellent thermal shock resistance and long-lasting durability, they are sure to provide reliable performance for years to come.

Support and Services:

Our Furnace Refractory Bricks are made from high-quality materials and undergo rigorous testing to ensure they meet industry standards. We offer technical support to assist with product selection, installation, and maintenance. Our team of experts can also provide on-site services such as inspections, repairs, and replacements. We stand behind our products and are committed to customer satisfaction.

Packing and Shipping:

Product Packaging:

Securely packed in wooden crates to prevent damage during transportation

Each crate contains 50 pieces of furnace refractory bricks

Dimensions of each brick: 9" x 4.5" x 2.5"

Shipping:

Ships within 3-5 business days after order confirmation

Delivery time varies depending on the destination

Shipping cost is calculated based on the destination and weight of the order

Customers will receive a tracking number once the order has been shipped

FAQ:

Q1: What is the brand name of these furnace refractory bricks?

A1: The brand name of these furnace refractory bricks is Rongsheng Xinwei.

Q2: What is the model number of these furnace refractory bricks?

A2: The model number of these furnace refractory bricks is Rongsheng.

Q3: What certifications do these furnace refractory bricks have?

A3: These furnace refractory bricks are certified with ISO9001.

Q4: Where are these furnace refractory bricks manufactured?

A4: These furnace refractory bricks are manufactured in Zhengzhou, China.

Q5: What is the minimum order quantity for these furnace refractory bricks?

A5: The minimum order quantity for these furnace refractory bricks is 1 ton.

~~~~~html

### Q6: What is the price range for these furnace refractory bricks?

A6: The price range for these furnace refractory bricks is between 200-800USD.

### Q7: What are the payment terms for these furnace refractory bricks?

A7: The payment terms for these furnace refractory bricks are TT and L/C.

### Q8: What is the supply ability for these furnace refractory bricks?

A8: The supply ability for these furnace refractory bricks is 2000tons per month.

### Q9: What is the delivery time for these furnace refractory bricks?

A9: The delivery time for these furnace refractory bricks is between 20-30 days.

### Q10: How are these furnace refractory bricks packaged?

A10: These furnace refractory bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages.
