

Low Thermal Expansion Zircon Furnace Refractory Bricks With True Density ≤ 2.33 G/cm³

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Excellent Thermal Shock Resistance: They Can Withstand Rapid Changes In Temperature Without Cracking Or Spalling.
- Flexural Strength: ≥ 10 MPa
- High Mechanical Strength: They Are Strong And Durable, Even At High Temperatures.
- High Refractoriness: They Can Withstand Temperatures Exceeding 2400°C (4352°F).
- Strength: High
- Product Category: Furnace Refractory Bricks
- Chemical Composition: High, Medium, Low
- Packing: Wooden Pallets Or Cartons

Product Description

Product Description:

Our Furnace Refractory Bricks come in a variety of models, so you can choose the perfect fit for your specific needs. Whether you require zircon brick, zircon refractory bricks, or dense zircon brick, we have you covered.

What sets our Furnace Refractory Bricks apart is their high corrosion resistance. They are resistant to attack by molten glass and other corrosive chemicals, ensuring a long-lasting and reliable solution for your furnace or kiln insulation needs.

Available in a range of colors including white, yellow, brown, and more, our Furnace Refractory Bricks not only provide top-notch performance but also look great in any industrial setting.

Choose our Furnace Refractory Bricks for a durable, efficient, and cost-effective solution to your furnace or kiln insulation needs. Contact us today to learn more!

Features:

Product Name: Furnace Refractory Bricks

Packing: Wooden Pallets Or Cartons

True Density: ≤ 2.33 G/cm³

High refractoriness: They can withstand temperatures exceeding 2400°C (4352°F).

Strength: High

Thermal Expansion: Low

Zircon Bricks

Zircon Refractory Bricks

Dense Zircon Brick

Technical Parameters:

Product Name	High Quality Assured Dense Zircon Bricks Furnace Refractory Bricks For Enhanced Performance in Glass Kilns
Product Category	Furnace Refractory Bricks
Material	Silica, Alumina, Magnesite, Zirconia, Etc.
Strength	High
Feature	High Temperature Resistance
Flexural Strength	≥ 10 MPa
Chemical Composition	High, Medium, Low
Moisture Content	Low
Color	White, Yellow, Brown, Etc.

Applications:

One of the most popular products in the Rongsheng Xinwei lineup is the dense zircon brick. These zircon refractory bricks are a type of zircon fire brick that are designed to withstand high temperatures and harsh conditions. They are made from a special blend of materials that make them incredibly strong and resistant to wear and tear. These bricks are perfect for use in furnaces, kilns, and other high-temperature settings where other types of bricks may not be able to withstand the heat.

Some of the common applications for Rongsheng Xinwei Furnace Refractory Bricks include steel-making, iron-making, glass-making, cement-making, and more. These bricks are perfect for lining furnaces, kilns, and other high-temperature equipment, and can help to extend the life of your equipment and reduce downtime. They are also easy to install and maintain, making them a popular choice for many industrial applications.

If you're interested in purchasing Rongsheng Xinwei Furnace Refractory Bricks, you'll be happy to know that the minimum order quantity is only 1 ton. The price ranges from 200-800USD, depending on the quantity and type of brick you need. Payment terms include TT and L/C, and the supply ability is 2000 tons per month. Delivery time is typically 20-30 days, and the bricks are packaged on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages. The place of origin is Zhengzhou, China.

Support and Services:

Furnace Refractory Bricks Product Technical Support:
Expert advice on product selection, installation, and maintenance
Assistance with troubleshooting and identifying solutions to technical issues
Customized solutions to meet specific furnace requirements
Furnace Refractory Bricks Services:
On-site installation and repair services
Refractory testing and analysis
Customized refractory design and engineering services

Packing and Shipping:

Product Packaging:
The furnace refractory bricks will be packed in wooden crates.
Each crate will contain 50 bricks.
The crates will be securely strapped and wrapped with plastic film to prevent any damage during transportation.
Shipping:
The product will be shipped via sea or air freight depending on the customer's preference.
Shipping cost will be calculated based on the destination and weight of the order.
Delivery time will depend on the shipping method and destination, and will be communicated to the customer upon placing the order.
Customers should inspect the product immediately upon delivery and report any damages or discrepancies to the seller within 24 hours.

FAQ:

Q1: What is the brand name of these furnace refractory bricks?
A1: The brand name of these furnace refractory bricks is Rongsheng Xinwei.
Q2: What is the model number of these furnace refractory bricks?
A2: The model number of these furnace refractory bricks is Rongsheng.
Q3: Is there any certification for these furnace refractory bricks?
A3: Yes, these furnace refractory bricks are certified with ISO9001.
Q4: Where are these furnace refractory bricks being manufactured?
A4: These furnace refractory bricks are being manufactured in Zhengzhou, China.
Q5: What is the minimum order quantity for these furnace refractory bricks?
A5: The minimum order quantity for these furnace refractory bricks is 1 ton.
Q6: What is the price range of these furnace refractory bricks?
A6: The price range of these furnace refractory bricks is 200-800 USD.
Q7: What are the payment terms for these furnace refractory bricks?
A7: The payment terms for these furnace refractory bricks are TT and L/C.
Q8: What is the supply ability for these furnace refractory bricks?
A8: The supply ability for these furnace refractory bricks is 2000 tons per month.
Q9: How long is the delivery time for these furnace refractory bricks?
A9: The delivery time for these furnace refractory bricks is 20-30 days.
Q10: How are these furnace refractory bricks packaged?
A10: These furnace refractory bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages.
