

High Refractoriness Under Load Sillimanite Refractory Standard Straight Shape At 1300C

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Features: High Working Temperature
- Apparent Porosity: 16%
- Volume Density: $\geq 2.20\text{g/cm}^3$
- Modle Number: As Required
- Permanent Linear Change: Low
- Application: Furnace Lining
- Porosity: High, Medium, Low
- Usage: Lining Of Industrial Furnaces
- Highlight: **1300C Sillimanite Refractory Standard Straight Shape**
, Sillimanite Refractory Standard Straight Shape

Product Description

Product Description:

Our refractory bricks are made from high-grade materials, including Sillimanite Brick, which is known for its exceptional thermal stability and resistance to thermal shock. This makes our product ideal for use in furnaces that operate at high temperatures.

In addition to its high working temperature, our Furnace Refractory Bricks are available in varying porosity levels to suit your specific application needs. Choose from high, medium, or low porosity levels, depending on your furnace's requirements.

Our product is also designed to have high, medium, or low softening temperatures, depending on the specific needs of your furnace. This ensures that our refractory bricks remain structurally sound, even under extreme heat conditions.

Our Furnace Refractory Bricks are the perfect solution for your furnace lining needs. Its exceptional thermal stability and resistance to thermal shock, coupled with its varying porosity and softening temperatures, make it the ideal choice for high-temperature furnace applications.

Features:

Product Name: Rongsheng High Refractoriness Sillimanite Refractory Brick For Glass Kiln

Usage: Lining Of Industrial Furnaces

Weight: As Designed

Residual Quartz: $\leq 1.0\%$

Features: High Working Temperature

Keywords: Sillimanite Brick, Sillimanite Refractory Brick, Sillimanite Refractory

Technical Parameters:

Product Name	Rongsheng High Refractoriness Sillimanite Refractory Brick For Glass Kiln
Model Number	As Required
Product Category	Furnace Refractory Bricks
Shape Type	Standard Straight Shape
Refractoriness Under Load	1300
Porosity	High, Medium, Low
Apparent Porosity	16%
Resistance To Spalling	Good
Usage	Lining Of Industrial Furnaces
Features	High Working Temperature

Applications:

The Rongsheng Sillimanite Brick is designed for use in glass kilns, metallurgical furnace linings, and other high-temperature applications. The product is made from high-quality sillimanite and other raw materials, allowing it to withstand high temperatures without losing its shape or strength. The product has a refractoriness under load of 1300, making it perfect for use in environments with extreme temperatures. The product also has a residual quartz content of less than 1.0%, making it resistant to chemical attacks and ensuring long-term durability.

The Rongsheng High Refractoriness Sillimanite Refractory Brick is suitable for use in various scenarios and occasions, such as:

Glass Kilns: The product is perfect for use in the lining of glass kilns, where it can withstand high temperatures and prevent the glass from sticking to the kiln walls. The product is durable and long-lasting, ensuring that the kiln operates efficiently for longer periods.

Metallurgical Furnace Linings: The product is also suitable for use in metallurgical furnace linings, where it can withstand high temperatures and resist wear and tear. The product has a high refractoriness under load, making it perfect for use in such environments.

High-Temperature Industrial Applications: The product is perfect for use in various high-temperature industrial applications, such as power plants, chemical plants, and cement plants. The product can withstand high temperatures without losing its shape or strength, ensuring that the industrial processes run smoothly.

The Rongsheng High Refractoriness Sillimanite Refractory Brick is available for purchase with a minimum order quantity of 1 ton. The product is priced between 200-800USD, depending on the order quantity. Buyers can choose between TT and L/C payment terms and can expect a supply ability of 2000 tons per month. The delivery time is between 20-30 days, and the product is packed on wooden pallets, with a waterproof cover and tightened with plastic/steel bandages. The product weight is as designed, ensuring that buyers get the exact quantity ordered.

Support and Services:

Furnace Refractory Bricks Technical Support:

Our team of experts is available to answer any technical questions you may have regarding our Furnace Refractory Bricks. We can provide guidance on installation, maintenance, and repair.

Furnace Refractory Bricks Services:

We offer a range of services to help you get the most out of your Furnace Refractory Bricks, including:

Customized brick shapes and sizes to meet your specific needs.

Brick installation services by our team of experienced professionals.

Brick repair and maintenance services to extend the life of your furnace.

Packing and Shipping:

The furnace refractory bricks will be packaged in strong wooden crates with sufficient cushioning material to prevent any damage during transportation. The bricks will be stacked neatly and secured tightly to avoid any movement during transit.

Shipping:

The product will be shipped via a reliable and trusted logistics company. The delivery time will depend on the destination, but we will ensure that the product is delivered within the agreed-upon timeframe. We will provide a tracking number so that you can track the shipment and monitor its progress.

FAQ:

Q: What is the brand name of these Furnace Refractory Bricks?

A: The brand name is Rongsheng Xinwei.

Q: What is the model number of these Furnace Refractory Bricks?

A: The model number is Rongsheng.

Q: Is there any certification for these Furnace Refractory Bricks?

A: Yes, these bricks are certified with ISO9001.

Q: Where are these Furnace Refractory Bricks manufactured?

A: These bricks are manufactured in Zhengzhou, China.

Q: What is the minimum order quantity for these Furnace Refractory Bricks?

A: The minimum order quantity is 1 ton.

Q: What is the price range for these Furnace Refractory Bricks?

A: The price ranges from 200-800 USD.

Q: What are the payment terms for these Furnace Refractory Bricks?

A: The payment terms are TT and L/C.

Q: What is the supply ability of these Furnace Refractory Bricks?

A: The supply ability is 2000 tons per month.

Q: What is the delivery time for these Furnace Refractory Bricks?

A: The delivery time is 20-30 days.

Q: How are these Furnace Refractory Bricks packaged?

A: These bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages.
