

Rongsheng Factory Supply Good Price Alumina Carbon Firebrick With Heat-Resistant Material

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Product Category: Furnace Refractory Bricks
- Thermal Expansion: High, Medium, Low
- Compressive Strength: $\geq 50\text{MPa}$
- Thermal Shock Resistance: ≥ 25 Times
- Fe₂O₃ Content: $\leq 2\%$
- Packing: Wooden Pallets Or Cartons
- Abrasion Resistance: Excellent
- Cold Crushing Strength: $\geq 40\text{ Mpa}$
- Highlight: **Good Price Alumina Carbon Firebrick, High Thermal Expansion Alumina Carbon Firebrick, Heat-Resistant Alumina Carbon Firebrick**

Product Description

Product Description:

Made with high-quality materials and manufactured in China, our Alumina-carbon Bricks are known for their extended kiln life, delivering long-lasting performance that can help save you money in the long run. With a thermal conductivity of $\leq 1.3\text{W/m}\cdot\text{K}$, this product is highly efficient, ensuring that your furnace operates at peak performance.

Whether you're looking to replace your existing furnace refractory bricks or simply need to stock up on spare parts, our Alumina Carbon Bricks are a great choice. They come packed in wooden pallets or cartons for easy transport and storage, making it easy to get the products you need when you need them.

So why wait? Order your Alumina Carbon Refractory Bricks today and experience the difference for yourself. With their exceptional quality and durability, you're sure to be impressed by these top-of-the-line furnace refractory bricks.

Our Product Introduction

Features:

Product Name: Rongsheng Factory Supply Good Price Alumina Carbon Firebrick With Heat-Resistant Material
Thermal Expansion: High, Medium, Low
Cold Crushing Strength: ≥ 40 Mpa
Chemical Resistance: High
Resistance To Spalling: Good
Alumina Carbon Brick
Alumina-carbon Brick
Alumina Carbon Refractory Brick

Technical Parameters:

Items	RSAC-60	
Product Category	Furnace Refractory Bricks	
Product Name	China Factory Manufactures Competitive Price Best Quality Alumina Carbon F	
Al ₂ O ₃ ,% min	60	
C,%min	12	
Apparent Porosity,%max	12	
Bulk Density,g/cm ³ .min	2.	
C.C. strength M/pa min	60	
Refractoriness under load (0.2Mpa) (min)	1650	
Thermal Shock Resistance(1000 ,water quenching,cycle),min	100	

Applications:

The Rongsheng Furnace Refractory Bricks are ideal for a variety of application occasions and scenarios. These Alumina Carbon Refractory Bricks are perfect for use in industries such as Iron and Steel, Non-ferrous Metals, Glass, Cement, Ceramics, and Power Generation.

These bricks are widely used in various furnace linings, especially in blast furnaces, hot blast stoves, electric arc furnaces, and converters.

The Rongsheng Furnace Refractory Bricks have excellent thermal conductivity, with a thermal conductivity of $\leq 1.3\text{W/m}\cdot\text{K}$, which makes them ideal for use in high-temperature environments. These bricks have good resistance to spalling, ensuring extended kiln life. The cold crushing strength of these bricks is ≥ 40 Mpa, making them highly durable and long-lasting.

Overall, the Rongsheng Furnace Refractory Bricks are an excellent choice for anyone in need of high-quality, durable Alumina Carbon Refractory Bricks. These bricks are made in China and are certified with ISO9001, ensuring their quality. They are perfect for use in a variety of industries and are widely used in various furnace linings. Order your Rongsheng Furnace Refractory Bricks today and enjoy their excellent thermal conductivity, resistance to spalling, and extended kiln life!

Support and Services:

Our Furnace Refractory Bricks are designed to withstand high temperatures and provide superior insulation for your furnace. In addition to our high-quality bricks, we also offer the following technical support and services:

- Customized brick sizes and shapes to fit your specific furnace needs
- Installation and maintenance assistance from our team of experts
- On-site inspections and consultations to ensure proper installation and optimal performance

Our team is dedicated to providing you with the best possible support and service to ensure your furnace runs efficiently and effectively. Contact us today for more information.

Packing and Shipping:

Product Packaging:

The furnace refractory bricks will be packaged in wooden pallets with plastic wrap for protection. Each pallet will contain 100 bricks and will be properly labeled with product information and handling instructions.

Shipping:

The furnace refractory bricks will be shipped via truck or sea freight depending on the customer's location and preference. The shipping cost will be calculated based on the weight and destination of the order. The estimated delivery time will be provided upon order confirmation.

FAQ:

What is the brand name of these refractory bricks?

A1: The brand name of these refractory bricks is Rongsheng Xinwei.

What is the model number of these refractory bricks?

A2: The model number of these refractory bricks is Rongsheng.

What is the certification of these refractory bricks?

A3: These refractory bricks are certified with ISO9001.

Where are these refractory bricks made?

A4: These refractory bricks are made in Zhengzhou, China.

What is the minimum order quantity for these refractory bricks?

A5: The minimum order quantity for these refractory bricks is 1 ton.

What is the price range for these refractory bricks?

A6: The price range for these refractory bricks is between 200-800USD.

What are the payment terms for these refractory bricks?

A7: The payment terms for these refractory bricks are TT and L/C.

What is the supply ability for these refractory bricks?

A8: The supply ability for these refractory bricks is 2000 tons per month.

What is the delivery time for these refractory bricks?

A9: The delivery time for these refractory bricks is 20-30 days.

How are these refractory bricks packaged?

A10: These refractory bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages.
