

Refractory Fire Brick Supplier Alumina Silica Refractory Bricks For High Temperature Environments

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Feature: Good Thermal Shock Resistance
- Flexural Strength: $\geq 10\text{MPa}$
- Volume Density: $\geq 2.20\text{g/cm}^3$
- Service Temperature: High
- Packing: Wooden Pallet, Carton, Etc.
- Extended Kiln Life: Yes
- Shape: Standard, Customized
- Color: White, Yellow, Brown, Etc.
- Product Category: High Alumina Refractory Brick
- Highlight: **High Temperature Environments Refractory Fire Brick**
, Alumina Refractory Fire Brick,
Silica Refractory Fire Brick

Product Description

Product Description:

Our alumina silica brick is made from high-quality raw materials, ensuring its durability and longevity. The extended kiln life of these bricks means that you won't have to replace them as frequently as other refractory materials, saving you both time and money in the long run.

One of the key features of our alumina silica brick is its high working temperature. With a maximum working temperature of over 1800°C, these bricks can be used in a wide range of applications, from steelmaking to ceramics production. Their excellent thermal shock resistance also means they can withstand rapid temperature changes without cracking or breaking.

In addition to their high temperature capabilities, our alumina silica bricks also have a high strength and flexural strength of at least 10MPa. This makes them ideal for use in heavy-duty applications where strength and durability are essential. So if you're looking for a reliable alumina silica brick supplier, look no further than our range of high-quality refractory bricks. With their excellent thermal shock resistance, extended kiln life, high strength, and high working temperature, these bricks are the perfect choice for demanding industrial applications.

Features:

Product Name: Refractory Fire Brick Supplier Alumina Silica Refractory Bricks For High Temperature Environments

Extended Kiln Life: Yes

Packing: Wooden Pallet, Carton, Etc.

Compressive Strength: 50-100 MPa

Service Temperature: High

Refractoriness: 1580-1790°C

Looking for an alumina silica brick supplier? Our Alumina Silica Refractory Bricks offer extended kiln life, with a compressive strength of 50-100 MPa and high service temperature. With a refractoriness of 1580-1790°C, these high alumina silica bricks come packed on wooden pallets, cartons, and more.

Technical Parameters:

Product Category:	High Alumina Refractory Bricks
Shape Type:	Standard Straight Shape
Refractoriness:	1580-1790°C
Service Temperature:	High
Features:	High Working Temperature, Good Thermal Shock Resistance
Permanent Linear Change:	Low
Volume Density:	≥2.20g/cm ³
Extended Kiln Life:	Yes
Condition:	Brand New

Applications:

The Rongsheng Alumina Silica Refractory Bricks are commonly used in industrial kilns and furnaces, as well as in the construction of high-temperature chimneys and other industrial structures. They are also used in the construction of high-temperature ovens, incinerators, and other heat-processing equipment. These bricks are particularly well-suited for use in the steel, cement, and glass industries, where high temperatures and harsh conditions are common.

The Rongsheng Alumina Silica Refractory Bricks are available in a range of colors, including white, yellow, and brown. They are also available in a variety of sizes and shapes, making them easy to customize for specific applications. These bricks are certified to ISO9001 quality standards, ensuring that they meet the highest standards of quality and performance.

When ordering Rongsheng Alumina Silica Refractory Bricks, customers can expect a minimum order quantity of 1 ton, with prices ranging from 200-800USD per ton, depending on the size and quantity of bricks ordered. Payment terms include TT and L/C, and supply ability is 2000 tons per month, with a delivery time of 20-30 days. These bricks are packaged on wooden pallets, with a water-proof cover, and tightened with plastic/steel bandages to ensure safe delivery.

The Rongsheng Alumina Silica Refractory Bricks are known for their high strength and extended kiln life. They are designed to withstand extreme temperatures and harsh conditions, making them the ideal choice for a wide range of industrial applications. Whether you are in the steel, cement, or glass industry, the Rongsheng furnace refractory bricks are sure to meet your needs and exceed your expectations.

Support and Services:

Alumina Silica Refractory Bricks product technical support and services:

- Expert technical assistance in selecting the appropriate refractory brick for your furnace's specific needs.
- On-site installation guidance and support to ensure proper installation and optimal performance.
- Ongoing maintenance recommendations and troubleshooting assistance to maximize the lifespan and efficiency of your refractory bricks.

Packing and Shipping:

Product Packaging: The Alumina Silica Refractory Bricks will be packed securely in wooden pallets, with each brick separated by a layer of foam or bubble wrap to prevent any damage during transportation. The pallets will be wrapped in plastic sheets to protect them from moisture and dust.

Shipping: The Alumina Silica Refractory Bricks will be shipped via a reliable and reputable carrier service. The shipping charges will be included in the final invoice and the estimated delivery time will be communicated to the customer. We take utmost care to ensure that the products reach our customers in perfect condition.

FAQ:

Q: What is the brand name of the Alumina Silica Refractory Bricks?

A: The brand name is Rongsheng Xinwei.

Q: What is the model number of the Alumina Silica Refractory Bricks?

A: The model number is Rongsheng.

Q: Is the product certified?

A: Yes, the product is certified with ISO9001.

Q: Where is the place of origin for the Alumina Silica Refractory Bricks?

A: The place of origin is Zhengzhou, China.

Q: What is the minimum order quantity for the Alumina Silica Refractory Bricks?

A: The minimum order quantity is 1 ton.

Q: What is the price range for the Alumina Silica Refractory Bricks?

A: The price range is between 200-800USD.

Q: What are the payment terms for the Alumina Silica Refractory Bricks?

A: The payment terms are TT and L/C.

Q: What is the supply ability per month for the Alumina Silica Refractory Bricks?

A: The supply ability is 2000 tons per month.

Q: How long is the delivery time for the Alumina Silica Refractory Bricks?

A: The delivery time is between 20-30 days.

Q: How are the Alumina Silica Refractory Bricks packaged?

A: The Alumina Silica Refractory Bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages.
