

230x114x65mm Anti-Acid Brick With Excellent Thermal Shock Resistance And Advantages

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30 Days
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Product Description: As A Leading Manufacturer Of Refractory Materials, Rongsheng Refractory Factory Specialize In Producing High-quality Acid Resistant Bricks For More Than 20 Years, Widely Used In Industries Such As Chemical, Metallurgy, Power, And Construction. Our Acid Res
- Standard Size: 230x114x65mm
- Chemical Composition: SiO₂: 69.8%, Al₂O₃: 22.5%, K₂O: 2.7%, Na₂O: 0.95%, CaO: 0.82%, MgO: 0.12%, Fe₂O₃: 0.49%, Acid Resistant Degree: 99.8%
- Acid Resistant Degree: ≥99.8%
- Packing & Delivery: Wooden Pallets With Plastic Film Or According To Your Request
- Manufacturer: Rongsheng Refractory Factory

Product Description

Product Description:

Our acid resistant bricks come in various sizes, including 150x75x15mm, 150x75x20mm, 150x75x30mm, 150x150x15mm, 150x150x20mm, 150x150x30mm, 200x200x15mm, 200x200x20mm, 200x200x30mm, 300x300x15mm, 300x300x20mm, 300x300x30mm, 230x113x15mm, 230x113x20mm, 230x113x30mm, 230x113x40mm, and 230x113x65mm.

Here at Rongsheng Refractory Factory, we have been producing high-quality acid resistant bricks for over 20 years. Our acid resistant bricks are widely used in industries such as chemical, metallurgy, power, and construction. Our anti-acid brick has an excellent acid resistance and high-temperature performance, making them essential in harsh environments where stable physical properties are crucial.

Our acid proof brick is affordable and of high quality. We ensure that our products are made with precision and care, guaranteeing customer satisfaction. Our anti acid tiles are made to last and provide a reliable solution in harsh environments.

Features:

Product Name: Acid Refractory Bricks

Chemical Composition:

SiO₂: 69.8%

Al₂O₃: 22.5%

K₂O: 2.7%

Na₂O: 0.95%

CaO: 0.82%

MgO: 0.12%

Fe₂O₃: 0.49%

Acid resistant degree: 99.8%

Standard Size: 230x114x65mm

Packing & Delivery: Wooden pallets with plastic film or according to your request

Key Features and Advantages:

Exceptional Acid Resistance

Superior High-Temperature Performance

Excellent Thermal Shock Resistance

Low Water Absorption

High Mechanical Strength

Looking for anti-acid brick or acid resistant tiles manufacturers? Our Furnace Refractory Bricks are the perfect solution for your needs!

Technical Parameters:

Product Description	As a leading manufacturer of refractory materials, Rongsheng Refractory Factory specialize in producing high-quality acid resistant bricks for more than 20 years, widely used in industries such as chemical, metallurgy, power, and construction. Our acid resistant bricks are renowned for their excellent acid resistance and high-temperature performance, making them essential in harsh environments where stable physical properties are crucial.
Bulk Density	2.31-2.4 g/cm ³
Acid Resistant Degree	≥99.8%
Sizes Available	150x75x15mm, 150x75x20mm, 150x75x30mm, 150x150x15mm, 150x150x20mm, 150x150x30mm, 200x200x15mm, 200x200x20mm, 200x200x30mm, 300x300x15mm, 300x300x20mm, 300x300x30mm, 230x113x15mm, 230x113x20mm, 230x113x30mm, 230x113x40mm, 230x113x65mm
Key Features and Advantages	Exceptional Acid Resistance, Superior High-Temperature Performance, Excellent Thermal Shock Resistance, Low Water Absorption, High Mechanical Strength

Product Category	Furnace Refractory Bricks
Custom Sizes Available	Yes
Packing & Delivery	Wooden pallets with plastic film or according to your request
Anti Bending Strength	≥58.8 Mpa

Applications:

Our Furnace Refractory Bricks are an ideal solution for a variety of industries, including the Chemical Industry, Metallurgical Industry, Construction and Environmental Protection, and Power Industry. Our sizes range from 150x75x15mm to 230x113x65mm, ensuring that we have the perfect size for your needs. We also offer exceptional acid resistance, superior high-temperature performance, excellent thermal shock resistance, low water absorption, and high mechanical strength, making our product a reliable choice for any application.

As acid resistant tiles manufacturers, we take pride in our product's ability to withstand harsh environments. Our anti-acid brick and antacid ceramic tiles are designed to resist corrosion and are perfect for use in chemical plants, battery rooms, and other areas where chemicals are used. Our exceptional thermal shock resistance also makes our product a great choice for use in furnaces, kilns, and other high-temperature applications.

If you're looking for a durable, reliable, and versatile product, look no further than Rongsheng Xinwei Furnace Refractory Bricks. Our company profile speaks for itself; we are a national high-tech enterprise integrating R&D, production, and technical services of high-performance refractory new materials. Our products are packed on wooden pallets, with a water-proof cover and tightened with plastic/steel bandages, ensuring that your product arrives in perfect condition. Contact us today to learn more about our products and how we can help you!

Support and Services:

Furnace Refractory Bricks are designed to withstand high temperatures and harsh conditions in a variety of industrial settings. Our technical support and services include:

- Assistance with selecting the right refractory brick for your specific application
- Guidance on installation and maintenance of the refractory bricks
- Troubleshooting assistance for any issues that may arise
- Refractory testing services to ensure optimal performance and longevity

Our team of experts is dedicated to providing the highest level of support to ensure the success of your project.

Packing and Shipping:

Product Packaging:

Each brick will be individually wrapped in plastic to prevent damage during transport.

Bricks will then be packed in wooden crates for added protection.

The crates will be labeled with the product name, quantity, and other necessary information.

Shipping:

Products will be shipped via a reputable shipping company.

Shipping costs will be calculated based on the weight and destination of the order.

Customers will be provided with a tracking number once the order has been dispatched.

Delivery times will vary depending on the destination and shipping method chosen.

FAQ:

Q1: What is the brand name of these furnace refractory bricks?

A1: The brand name of these bricks is Rongsheng Xinwei.

Q2: What is the model number of these furnace refractory bricks?

A2: The model number of these bricks is Rongsheng.

Q3: Is there any certification for these furnace refractory bricks?

A3: Yes, these bricks are certified with ISO9001.

Q4: Where are these furnace refractory bricks manufactured?

A4: These bricks are manufactured in Zhengzhou, China.

Q5: What is the minimum order quantity for these furnace refractory bricks and what is the price range?

A5: The minimum order quantity is 1 ton and the price range is 200-800USD.

Q6: What payment terms are accepted for these furnace refractory bricks and what is the delivery time?

A6: Payment terms accepted are TT and L/C, and the delivery time is 20-30 days.

Q7: How are these furnace refractory bricks packaged and supplied?

A7: These bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages. The supply ability is 2000 tons per month.
