

Different Size Good Factory Price Steel Making Rongsheng Graphite Electrode For Industrial Use

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou, China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: UP HP UHP
- Minimum Order Quantity: 1 Ton
- Price: 200-800 USD
- Packaging Details: Standard export carton/plywood crate
- Delivery Time: 20-30 Days
- Payment Terms: TT; L/C
- Supply Ability: 2000 tons /month

Product Specification

- High Thermal Shock Resistance: Designed To Withstand Extreme Temperature Variations, Our Electrodes Offer Superior Thermal Shock Resistance.
- Packaging: Standard Export Carton/plywood Crate With Customized Shipping Mark And QC Department.
- Advanced Equipment: We Have Advanced Equipment That Improves Productivity And Mass Production.
- Strong Anti-Oxidation Performance: With Advanced Anti-oxidation Treatments, Our Electrodes Can Resist Oxidation At High Temperatures, Prolonging Their Lifespan And Ensuring Consistent Performance Throughout Their Use In Electric Arc Furnaces.
- Product Name: RP HP UHP Arc Furnace Ladle Furnace Graphite Electrodes With Good Graphite

Product Description

Product Description:

Our strong global presence is evidenced by our successful collaboration with major steel manufacturers and metallurgical companies around the world. Our reputation for reliability and quality is unmatched in the industry.

Our graphite electrodes are designed to have a lower consumption rate during steelmaking. This results in cost savings for customers by reducing the frequency of electrode replacement.

In addition, our electrodes offer superior thermal shock resistance, which is critical in steelmaking. Our high thermal shock resistance ensures that our electrodes can withstand extreme temperature variations, making them more durable and long-lasting.

If you are looking for the highest quality graphite electrode for your EAF, look no further. Our graphite electrodes are designed to provide efficient and cost-effective solutions for your steelmaking needs.

Features:

Product Name: Graphite Electrode

Technical Support and After-Sales Service: Our team of experts provides comprehensive technical support and after-sales service.

Fast Response Time: Our dedicated sales and support teams are available 24/7 to answer your queries and provide detailed information about our products.

Strict Quality Control: Every batch of electrodes undergoes rigorous quality checks, including density tests, resistivity measurements, and flexural strength assessments.

Low Consumption Rate: Our graphite electrodes are engineered for a lower consumption rate during steelmaking, resulting in cost savings for customers by reducing the frequency of electrode replacement.

Shipping: By courier, air, or sea depending on customer preference.

Product Types: ultra-high power graphite electrode, industrial graphite electrode, graphite electrodes for steel mills

Technical Parameters:

Product Category	Graphite Electrode
Strong Global Presence	We have successfully collaborated with major steel manufacturers and metallurgical companies around the world, earning a reputation for reliability and quality.
Strong Anti-Oxidation Performance	With advanced anti-oxidation treatments, our electrodes can resist oxidation at high temperatures, prolonging their lifespan and ensuring consistent performance throughout their use in electric arc furnaces.
Superior Conductivity	Our graphite electrodes are made from premium-grade needle coke and pitch, ensuring high electrical conductivity and efficient melting processes.
Advanced Equipment	We have advanced equipment that improves productivity and mass production.
Low Consumption Rate	Our graphite electrodes are engineered for a lower consumption rate during steelmaking, resulting in cost savings for customers by reducing the frequency of electrode replacement.
High Thermal Shock Resistance	Designed to withstand extreme temperature variations, our electrodes offer superior thermal shock resistance.
Product Name	RP HP UHP Arc Furnace Ladle Furnace Graphite Electrodes With Good Graphite Electrodes Price For Steelmaking
Customizable Solutions	We offer custom solutions tailored to the specific power and size requirements of your furnace.
Efficient Global Supply Chain	With years of experience in international trade, we have developed an efficient global supply chain.

Applications:

Delivery time for their graphite electrodes is between 20 to 30 days, with packaging details of standard export carton or plywood crate. Shipping options include courier, air, or sea, depending on customer preference.

Rongsheng Xinwei's graphite electrodes are widely used in various industries such as steel production, ferrosilicon alloy smelting, and even in the recycling sector. Their RP, HP, and UHP graphite electrodes cater to different power levels of furnaces, providing flexibility for their clients. This makes Rongsheng Xinwei a reliable option for industrial graphite electrode needs.

As one of the leading graphite electrode companies, Rongsheng Xinwei has a strong global presence, having collaborated with major steel manufacturers and metallurgical companies around the world. This has earned them a reputation for reliability and quality.

Rongsheng Xinwei also boasts of advanced equipment that improves productivity and mass production of their high power graphite electrode products.

Support and Services:

Product Technical Support and Services for Graphite Electrode:

- Technical assistance for product selection and application
- On-site technical support for installation and commissioning
- Training for product operation and maintenance
- Troubleshooting and problem-solving services
- Regular maintenance and inspection services

Packing and Shipping:

Our Graphite Electrode product is carefully packaged to ensure safe transport and delivery.

The electrodes are first wrapped securely in plastic and then placed in a sturdy cardboard box. The box is then sealed with tape to prevent any damage during shipping.

We offer several shipping options to meet your needs, including standard ground shipping and expedited shipping for urgent orders.

Our team takes great care in handling and shipping your Graphite Electrode product to ensure it arrives in excellent condition.

FAQ:

Q: What is the brand name of your graphite electrode?

A: Our brand name is Rongsheng Xinwei.

Q: What is the model number of your graphite electrode?

A: Our model number is UP HP UHP.

Q: What certifications do your graphite electrodes have?

A: Our graphite electrodes have ISO9001 certification.

Q: Where is the place of origin for your graphite electrodes?

A: Our graphite electrodes are made in Zhengzhou, China.

Q: What is the minimum order quantity for your graphite electrodes?

A: The minimum order quantity for our graphite electrodes is 1 ton.

Q: What is the price range for your graphite electrodes?

A: Our graphite electrodes are priced between 200-800 USD.

Q: What are the payment terms for your graphite electrodes?

A: We accept TT and L/C as payment terms for our graphite electrodes.

Q: What is the supply ability for your graphite electrodes?

A: Our supply ability for graphite electrodes is 2000 tons per month.

Q: What is the delivery time for your graphite electrodes?

A: The delivery time for our graphite electrodes is between 20-30 days.

Q: What are the packaging details for your graphite electrodes?

A: Our graphite electrodes are packaged in standard export cartons or plywood crates.
