

Ceramic Glass Refractory Raw Material Industrial Grade Zirconium Silicate Powder

packed on wooden pallets, with water-proof cover, and tightened with plastic/steel

Basic Information • Place of Origin: Zhengzhou, Henan, China • Brand Name: Rongsheng Xinwei • Certification: ISO Certification • Model Number: Rongsheng Zirconium Silicate • Minimum Order Quantity: 1 Ton • Price: 200-800 USD

bandages 20-30DAYS

TT; L/C

Product Specification

• Packaging Details:

Delivery Time:Payment Terms:

 Highlight: 	Ceramic Glass Refractory Raw Material,
• Type:	Refractory Raw Material
Thermal Shock Resistance: Good	
• Size:	0-3mm, 0-5mm, 0-10mm, Etc.
• Shape:	Powder, Granular, Block, Etc.
 Refractoriness Under Load: 1400-1550 	
 Refractoriness: 	1700-1790
Porosity:	≤20%
 Packaging: 	25kg/bag, 50kg/bag, Etc.
Moisture Content:	≤1.5%
Density:	2.5-3.2 G/cm3
Color:	White, Gray, Brown, Etc.
Cold Crushing Strength:	≥110MPa
 Alkali Resistance: 	Good
 Acid Resistance: 	Good

Product Description

Top Quality Industrial Grade Zirconium Silicate for Ceramic and Glass Introduction of Zirconium silicate

Zirconium silicate is a non-toxic, odorless white or off-white powder. It has a high refractive index of 1.93-2.01 and stable chemical performance, so it is widely used in the production of various building ceramics, sanitary ceramics, daily ceramics and first-class handicraft ceramics.

Application of Zirconium silicate

1. Used as an excellent opacifying agent in ceramics, opalescent glazes, paint intensifiers, etc;

2.Used as a raw material for the special glass and porcelain, and a filler for special rubber-reinforced resin;

3.Used in the production of high-grade ceramic glazes, high-grade refractory fibers, TV display screens and other production fields;
