

China Factory Manufactures Competitive Price Best Quality Alumina Carbon Firebricks For Kilns

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Extended Kiln Life: Yes
- Acid Resistance: $\geq 95\%$
- Thermal Conductivity: $\leq 1.3W/m \cdot K$
- Thermal Shock Resistance: ≥ 25 Times
- Chemical Resistance: High
- Thermal Expansion: High, Medium, Low
- Fe₂O₃ Content: $\leq 2\%$
- Packing: Wooden Pallets Or Cartons
- Highlight: **Best Quality Alumina Carbon Firebricks, Acid Resistance Alumina Carbon Firebricks, Kilns Alumina Carbon Firebricks**

Product Description

Product Description:

With a thermal shock resistance of at least 25 times, our Alumina Carbon Firebricks can withstand rapid temperature changes without cracking or breaking. This makes them an ideal choice for high-temperature applications, such as in furnaces and kilns.

Our Alumina Carbon refractory bricks come packed in either wooden pallets or cartons, depending on your preference. This ensures that they arrive at your location in pristine condition, ready to be installed in your furnace or other high-temperature application.

In addition to their excellent thermal properties, our Alumina Carbon Refractory Bricks also have a low Fe_2O_3 content of no more than 2%. This makes them highly resistant to corrosion, even when exposed to harsh chemicals and other corrosive materials.

Our Alumina Carbon Refractory Bricks are made in China, a country known for producing some of the best refractory materials in the world. This guarantees that you are getting a high-quality product that is built to last, no matter what your application requires.

Whether you are building a new furnace or need to replace worn-out bricks in an existing one, our Alumina Carbon Refractory Bricks are the perfect choice. With their unbeatable combination of strength, durability, and resistance to thermal shock and abrasion, you can rely on our bricks to provide reliable service for years to come.

Features:

Product Name: China Factory Manufactures Competitive Price Best Quality Alumina Carbon Firebricks For Kilns

Cold Crushing Strength: ≥ 40 Mpa

Thermal Shock Resistance: ≥ 25 Times

Thermal Conductivity: ≤ 1.3 W/m-K

Extended Kiln Life: Yes

Packing: Wooden Pallets Or Cartons

Material: Alumina-carbon Brick

Also known as: Alumina-carbon Bricks, Alumina Carbon Refractory

Technical Parameters:

Items	RSAC-60
Product Category	Furnace Refractory Bricks
Product Name	China Factory Manufactures Competitive Price Best Quality Alumina Carbon Firebricks For Kilns
Al_2O_3 , % min	60
C, % min	12
Apparent Porosity, % max	12
Bulk Density, g/cm ³ .min	2.
C.C. strength M/pa min	60
Refractoriness under load (0.2Mpa) (min)	1650
Thermal Shock Resistance(1000 ,water quenching,cycle),min	100

Applications:

Our Alumina Carbon Refractory Bricks are known for their excellent abrasion resistance. They are designed for use in high-temperature kilns and offer superior performance. Our Rongsheng Refractory Supply Alumina Carbon Bricks are specially formulated to extend kiln life and have an acid resistance of $\geq 95\%$.

Our Alumina Carbon Refractory Bricks are ideal for use in a range of product application occasions and scenarios. They are perfect for use in the steel industry for blast furnaces, ladle, and tundish linings. They are also suitable for use in the non-ferrous industry for copper furnaces, aluminum furnaces, and other high-temperature applications.

Additionally, our Alumina Carbon Refractory Bricks are perfect for use in the cement industry for rotary kilns and cyclone preheaters. They are also ideal for use in the power generation industry for boilers, gasifiers, and incinerators.

Our Alumina Carbon Refractory Bricks are made to the highest standards and are built to last. They offer superior performance and are designed to withstand extreme temperatures and harsh conditions. With our Alumina Carbon Refractory Bricks, you can be sure that your high-temperature applications will be reliable and efficient.

Choose Rongsheng Xinwei for all your Alumina Carbon Refractory Brick needs. Our products are made in China and are of the highest quality. We are committed to providing our customers with the best products and services possible. Contact us today to learn more about our Alumina-carbon Bricks and how they can benefit your business.

Support and Services:

Our Furnace Refractory Bricks are designed to withstand high temperatures and provide superior insulation for furnace linings. We offer technical support and services to ensure that our customers have the knowledge and assistance they need to properly install and maintain our refractory bricks.

Our technical support includes:

Assistance with product selection

Recommendations for installation and maintenance

Guidance on troubleshooting and problem-solving

In addition, we offer a range of services to support our customers:

Custom brick cutting to fit specific furnace dimensions

On-site installation and maintenance services

Training for proper installation and maintenance

Our goal is to provide our customers with the highest quality refractory bricks and exceptional support to ensure the longevity and efficiency of their furnace systems.

Packing and Shipping:

Product Packaging:

The furnace refractory bricks come in a sturdy cardboard box with a handle for easy carrying. The bricks are securely packed with foam inserts to prevent any damage during transportation.

Shipping:

We offer free standard shipping within the United States. The estimated delivery time is 3-5 business days. For international orders, shipping rates and delivery times may vary depending on the destination country.

FAQ:

What is the brand name of these furnace refractory bricks?

Answer: The brand name is Rongsheng Xinwei.

What is the model number of these furnace refractory bricks?

Answer: The model number is Rongsheng.

What certifications do these furnace refractory bricks have?

Answer: These furnace refractory bricks are certified with ISO9001.

Where are these furnace refractory bricks made?

Answer: These furnace refractory bricks are made in Zhengzhou, China.

What is the minimum order quantity for these furnace refractory bricks?

Answer: The minimum order quantity is 1 ton.
