Our Product Introduc

High-Performance Pyrophyllite Bricks For Superior High-Temperature **Insulation In Extreme Condition**

Basic Information

• Place of Origin: Zhengzhou, China • Brand Name: Rongsheng Xinwei

• Certification: ISO9001 Model Number: Rongsheng Minimum Order Quantity: 1 Ton • Price: 200-800 USD

• Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages

20-30 Days • Delivery Time: TT; L/C • Payment Terms: 2000 tons/month Supply Ability:

Product Specification

• Highlight: High-Performance Pyrophyllite Bricks,

Extreme Condition Pyrophyllite Bricks, Superior High-Temperature Insulation

Pyrophyllite Bricks

Product Description

Product Overview:

Pyrophyllite Bricks Furnace Refractory Bricks are high-quality refractory materials made from pyrophyllite mineral, known for their excellent thermal stability and insulating properties. These bricks are ideal for high-temperature insulation applications, offering superior performance in various industrial processes.

Key Features:

Exceptional Thermal Stability: Pyrophyllite Bricks Furnace Refractory Bricks can withstand high temperatures without degrading, making them ideal for insulation in high-temperature environments.

Low Thermal Conductivity: These bricks provide excellent thermal insulation, reducing heat loss and improving energy

High Purity: Made from pure pyrophyllite, these bricks ensure consistent quality and performance. **Applications**:

Industrial Furnaces: Used for insulation in blast furnaces, electric arc furnaces, and rotary kilns.

Petrochemical Industry: Ideal for lining reactors, reformers, and other high-temperature processing equipment. Ceramic Kilns: Suitable for insulation in pottery and ceramic kilns, ensuring efficient energy use. Product Specification of Pyrophyllite Bricks Furnace Refractory Bricks For High-Temperature Insulation

Property		U	nit
Density		g/	'cc
Apparent Porosity		9	%
Cold Crushing Strength		М	Pa
Flexural Strength		М	Pa
Refractoriness Under Load	At 0.2MPa	11	
	(t0.5)		
Thermal Expansion	at 1000	%	./
	at 1400		/o
Thermal Conductivity	at 400	W/MK	
	1000		
Permanent Linear Change	at 1300 /2h	9	%
SiO2		wt	: %
Al2O3		wt	: %
Fe2O3		wt	: %
TiO2		wt	: %
Alkalis (Na2O+K2O)		wt	: %

Export Advantages: Global Reach: With a robust export network, we deliver high-quality Pyrophyllite Bricks to clients worldwide. Customized Solutions: We offer tailored solutions to meet specific client needs, ensuring optimal performance in various applications.

Reliable Supply Chain: Our efficient supply chain ensures timely delivery and consistent product quality.
