High-Strength Alkali-Resistant Bricks Furnace Refractory Brick For Long-Lasting Industrial Use

Basic Information

Place of Origin:	Zhengzhou ,China
Brand Name:	Rongsheng Xinwei
Certification:	ISO9001
Model Number:	Rongsheng
 Minimum Order Quantity: 	1 Ton
Price:	200-800USD
Packaging Details:	Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
Delivery Time:	20-30Days
Payment Terms:	TT; L/C
 Supply Ability: 	2000tons /month

Product Specification

٠	Cold	Crushing	Strength:	≥60MPa
---	------	----------	-----------	--------

- Packing: Wooden Pallet, Carton, Etc.
- Heat Capacity: High
- Softening Point: High
 True Density: ≤2.33 G/cm3
- True Density: ≤2.3
 Extended Kiln Life: Yes
- Acid Resistance: ≥95%
- Al2O3 Content: ≥42%
- Highlight: High Strength Furnace Refractory Brick, Long Lasting Furnace Refractory Brick, Alkali Resistant Furnace Refractory Brick

Product Description:

Our Alkali-Resistant Refractory Bricks Furnace Refractory Bricks are designed to withstand extreme temperatures up to 1700°C, making them perfect for use in high-temperature furnaces and kilns. With a cold crushing strength of ≥60MPa, these bricks are incredibly durable and can withstand heavy loads and pressure without cracking or breaking.

Additionally, our Alkali-Resistant Refractory Bricks Furnace Refractory Bricks have low porosity, ensuring that they are resistant to thermal shock and can maintain their shape under high temperatures. Their low porosity also makes them highly resistant to acid corrosion, with an acid resistance of ≥95%. This makes them a great choice for use in environments where acidic or corrosive materials are present.

Our Alkali-Resistant Refractory Bricks Furnace Refractory Bricks are also designed with a true density of ≤2.33 G/cm3, providing excellent insulation properties that help to reduce heat loss and improve energy efficiency. This makes them ideal for use in a variety of industrial applications, from steel manufacturing to glass production.

Whether you're looking for high-quality refractory bricks for your industrial furnace or kiln, ourAlkali-Resistant Refractory Bricks Furnace Refractory Bricks are the ideal choice. With their exceptional strength, durability, and resistance to high temperatures and acid corrosion, they provide reliable performance and long-lasting protection for your equipment.

Features:

Product Name: High-Strength Alkali-Resistant Bricks Furnace Refractory Brick For Long-Lasting Industrial Use Cold Crushing Strength: ≥60MPa Extended Kiln Life: Yes Product Category: Furnace Refractory Bricks Temperature Resistance: Up To 1700°C Features: Alkali-Resistant Bricks Alkali-Resistant Firebrick Alkali-Resistant Refractory Bricks

Technical Parameters:

Product Name:	High-Strength Alkali-Resistant Bricks Furnace Refractory Brick For Long-Lasting Industrial Use
Product Category:	Furnace Refractory Bricks
AI2O3 Content:	≥42%
Cold Crushing Strength:	≥60MPa
Porosity:	Low
Acid Resistance:	≥95%
Heat Capacity:	High
Extended Kiln Life:	Yes
Reduced Downtime:	Yes
Packing:	Wooden Pallet, Carton, Etc.

This product is an example of Alkali-Resistant Refractory Bricks produced by an Alkaline Brick Manufacturer. The Alkali Resistant Brick Lining ensures enhanced furnace protection.

Applications:

Our Alkali-Resistant Refractory Bricks Furnace Refractory Bricks are certified by ISO9001, ensuring that our customers receive the highest quality of products. These products are made from high-quality raw materials and have a cold crushing strength of \geq 60MPa and excellent thermal shock resistance. Our Alkaline Brick Manufacturer has a heat capacity that is high, and acid resistance of \geq 95%, making it an ideal choice for various industrial applications.

The Rongsheng model of Furnace Refractory Bricks is packed on wooden pallets and tightly secured with plastic/steel bandages, making it easy to transport and handle. The minimum order quantity for these bricks is 1 ton, and the price ranges from 200-800USD, depending on the order quantity. We offer TT and L/C as payment terms, and we have a supply ability of 2000 tons per month with a delivery time of 20-30 days.

If you are looking for a reliable and high-quality Alkali-Resistant Firebrick for your industrial needs, Rongsheng Xinwei's Furnace Refractory Bricks are the perfect solution. Our products are durable, long-lasting, and provide excellent performance under harsh conditions. Contact us today to place your order and experience the best in Alkali-Resistant

Firebrick technology.

Support and Services:

Our Alkali-Resistant Refractory Bricks Furnace Refractory Bricks are high-quality, durable, and designed to withstand extreme temperatures. We offer a range of standard sizes and shapes, as well as custom options to meet your specific needs.

Our technical support team is available to answer any questions you may have about installation, maintenance, and troubleshooting. We also offer on-site services, including installation and repair, to ensure that your furnace is operating at peak performance.

In addition to our products and services, we are committed to providing excellent customer service. We strive to exceed your expectations and provide prompt and professional assistance with any inquiries or issues you may have.

Packing and Shipping:

The Alkali-Resistant Refractory Bricks furnace refractory bricks will be packaged securely in wooden crates to prevent any damage during transportation. Each crate will contain a specific quantity of bricks, and the exact number will depend on the size and weight of the bricks. The crates will be labelled with the product name, quantity, and any other relevant information.

Shipping:

We offer worldwide shipping for our furnace refractory bricks. The shipping options will vary depending on the destination and the quantity of bricks ordered. We work with reputable shipping companies to ensure safe and timely delivery of your order. Once your order has been shipped, we will provide you with a tracking number so that you can monitor the progress of your delivery.

FAQ:

Q: What is the brand name of these refractory bricks?

- A: The brand name of these furnace refractory bricks is Rongsheng Xinwei.
- Q: What is the model number of these refractory bricks?
- A: The model number for these furnace refractory bricks is Rongsheng.

Q: Is there any certification for these refractory bricks?

A: Yes, these furnace refractory bricks are certified with ISO9001.

Q: What is the minimum order quantity for these refractory bricks?

- A: The minimum order quantity for these furnace refractory bricks is 1 ton.
- Q: How are these refractory bricks packaged?

A: These furnace refractory bricks are packed on wooden pallets, with a water-proof cover, and tightened with plastic/steel bandages.

- Q: What are the payment terms for these refractory bricks?
- A: The payment terms for these furnace refractory bricks are TT and L/C.
- Q: What is the supply ability of these refractory bricks?
- A: The supply ability of these furnace refractory bricks is 2000 tons per month.
- **Q:** What is the price range for these refractory bricks?
- A: The price range for these furnace refractory bricks is between 200-800 USD.
- Q: What is the delivery time for these refractory bricks?
- A: The delivery time for these furnace refractory bricks is between 20-30 days.
