

Industrial Grade Excellent Temperature Performance Good Price Silica Bricks Zero Expansion Furnace Refractory Bricks

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou ,China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: Rongsheng
- Minimum Order Quantity: 1 Ton
- Price: 200-800USD
- Packaging Details: packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 20-30DAYS
- Payment Terms: TT; L/C
- Supply Ability: 2000tons /month

Product Specification

- Volume Density: $\geq 2.20\text{g/cm}^3$
- Excellent High-Temperature Performance: Yes
- Material: Fireclay
- Model: As Required
- Porosity: $\leq 20\%$
- Application: High Temperature Furnaces
- Reduced Downtime: Yes
- Feature: High Refractoriness
- Highlight: **Good Price Furnace Refractory Bricks,
Zero Expansion Furnace Refractory Bricks,
Industrial Grade Furnace Refractory Bricks**

Product Description

Product Description:

This type of Industrial Grade Excellent Temperature Performance Good Price Silica bricks Zero Expansion Furnace Refractory Bricks is made from a combination of alumina and silica, which provides excellent resistance to alkalis and acids. With an alkali resistance of $\geq 85\%$, you can be assured that this brick will last long and withstand the harshest environments. Its Fe_2O_3 content is also kept at a minimum, $\leq 2\%$, ensuring that it won't negatively affect your furnace's performance.

Our Alumina Silica Fire Brick is also a great alternative to the traditional silica fire brick. It has improved product quality, making it more durable and reliable than other types of bricks. It's perfect for use in high-temperature applications such as furnaces, kilns, and incinerators.

In addition to its excellent properties, this brick is also cost-effective and easy to install. Its simple design allows for easy stacking and placement, saving you time and money in the long run. Plus, it's readily available in a variety of sizes and shapes, making it easy to find the right fit for your furnace.

Overall, if you're looking for a high-quality, durable, and cost-effective refractory brick for your furnace, the Alumina Silica Fire Brick is the perfect choice. Try it today and see the difference it can make in the performance of your furnace.

Features:

Product Name: Industrial Grade Excellent Temperature Performance Good Price Silica bricks Zero Expansion Furnace Refractory Bricks

Feature: High Refractoriness

Chemical Stability: Yes

Acid Resistance: Good

Superior Thermal Shock Resistance: Yes

Volume Density: $\geq 2.20\text{g/cm}^3$

Looking for high quality silica refractory brick with excellent thermal and chemical properties? Our Furnace Refractory Bricks offer superior refractoriness, chemical stability, and acid resistance. With a volume density of $\geq 2.20\text{g/cm}^3$, our silica bricks provide excellent thermal shock resistance. Contact us today for a silica bricks price quote!

Technical Parameters:

Product Attribute	Value
Product Name	Alumina Silica Refractory Brick
Improved Product Quality	Yes
Volume Density	$\geq 2.20\text{g/cm}^3$
Softening Point	High
Low Thermal Expansion Coefficient	Yes
Acid Resistance	Good
Alkali Resistance	$\geq 85\%$
Packing	Wooden Pallets or Cartons
Excellent High-Temperature Performance	Yes
Extended Kiln Life	Yes
Surface	Smooth, Rough, etc.

Applications:

The Rongsheng model of refractory bricks is ISO9001 certified and produced in Zhengzhou, China with a minimum order quantity of 1 ton. The price range for these bricks is between 200-800USD, with payment terms available in TT or L/C. With a monthly production capacity of 2000 tons, orders can be delivered within 20-30 days from the time of purchase.

These furnace refractory bricks are packed securely on wooden pallets, with a water-proof cover and tightened with plastic/steel bandages for safe transportation. They are suitable for use in a variety of applications, including:

Silica refractory brick

Fused silica brick

Alumina silica brick

Due to their high temperature resistance and mechanical strength, the Rongsheng Xinwei Furnace Refractory Bricks are ideal for use in industries such as metallurgy, building materials, chemical engineering, and machinery. They are particularly useful in applications such as furnaces, boilers, and kilns, where high temperatures are required.

Support and Services:

The Furnace Refractory Bricks product technical support and services include:
Expert consultation on the selection and installation of refractory bricks
Assistance with designing and customizing brick shapes and sizes to meet specific furnace requirements
On-site inspection and analysis of furnace conditions and recommendations for optimal refractory brick solutions
Training on proper brick installation and maintenance techniques
24/7 technical support for any issues or concerns

Our team of experienced professionals is dedicated to ensuring our customers receive the highest level of support and service for their Furnace Refractory Bricks.

Packing and Shipping:

Product Packaging:

The furnace refractory bricks are packaged in wooden crates with a layer of foam padding to protect the bricks during transportation. Each crate contains 50 bricks.

Shipping:

We ship the furnace refractory bricks via sea freight or air freight depending on the customer's preference. We ensure that the bricks are securely packed and properly labeled to avoid any damage or loss during transit.

FAQ:

Here are some frequently asked questions about our Furnace Refractory Bricks:

Q: What is the brand name of the Furnace Refractory Bricks product?

A: The brand name of our Furnace Refractory Bricks is Rongsheng Xinwei.

Q: What is the model number of the Furnace Refractory Bricks product?

A: The model number of our Furnace Refractory Bricks is Rongsheng.

Q: What is the certification of the Furnace Refractory Bricks product?

A: Our Furnace Refractory Bricks are certified with ISO9001.

Q: What is the minimum order quantity for the Furnace Refractory Bricks product?

A: The minimum order quantity for our Furnace Refractory Bricks is 1 ton.

Q: What is the price range for the Furnace Refractory Bricks product?

A: The price range for our Furnace Refractory Bricks is between 200-800USD.

Q: What are the payment terms for the Furnace Refractory Bricks product?

A: We accept TT and L/C as payment terms for our Furnace Refractory Bricks.

Q: What is the supply ability for the Furnace Refractory Bricks product?

A: Our supply ability for Furnace Refractory Bricks is 2000 tons per month.

Q: What is the delivery time for the Furnace Refractory Bricks product?

A: The delivery time for our Furnace Refractory Bricks is between 20-30 days.

Q: What are the packaging details for the Furnace Refractory Bricks product?

A: Our Furnace Refractory Bricks are packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages.
