

Reliable Performance High Thermal Resistance And Durability Fireclay Brick For Industrial Applications

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou, Henan, China
- Brand Name: Rongsheng Xinwei
- Certification: ISO Certification
- Model Number: SK-30, SK-32, SK-34, SK-35
- Minimum Order Quantity: 1 Ton
- Price: 200-800 USD
- Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 10-20 Days
- Payment Terms: TT; L/C
- Supply Ability: 2000 tons /month

Product Specification

- Flexural Strength: High
- Weight: 2 Kg
- Texture: Smooth
- Color: Yellow
- Efractoriness: 1750
- Durability: Long-lasting
- Mgo Content: 0.5-1.5%
- Maintenance: Low
- Highlight: **High Thermal Resistance Fireclay Brick,
Durability Fireclay Brick,
Industrial Fireclay Brick**

Product Description

Product Description:

Our Reliable Performance High Thermal Resistance And Durability Fireclay Brick For Industrial Applications is specially designed to offer superior performance in high-heat environments. With an Mgo content of 0.5-1.5%, these bricks are able to withstand temperatures of up to 1,800 degrees Celsius without any loss of structural integrity or degradation of the material.

Not only is our fireclay brick incredibly heat-resistant, but it also boasts a smooth texture that makes it easy to work with and aesthetically pleasing. The smooth surface of these bricks allows for easy installation and ensures that the finished product looks sleek and professional.

One of the most impressive features of our fireclay brick is its high alkali resistance. Unlike many other types of brick, our fireclay brick is able to withstand exposure to alkalis without any significant damage or deterioration. This makes it an ideal choice for projects that involve exposure to alkalis, such as in the construction of chemical plants or other industrial facilities.

When it comes to durability, our fireclay brick is second to none. Thanks to its high-quality construction and superior materials, our fireclay brick is able to withstand years of wear and tear without showing any signs of wear or aging. This makes it an ideal choice for use in high-traffic areas or in projects that require long-lasting durability.

Finally, our fireclay brick boasts high flexural strength, making it an excellent choice for use in structural applications. Whether you're building a new industrial facility or constructing a new home, our fireclay brick is the perfect choice for any project that requires strength, durability, and reliability.

In summary, our fireclay brick is the ideal choice for anyone in need of high-quality, heat-resistant, alkali-resistant, long-lasting, and high-strength bricks. Whether you're working on an industrial project or a residential construction project, our fireclay brick is the perfect choice for your needs. So why wait? Order your fireclay brick today and experience the quality and durability of our product for yourself!

Features:

Product Name: Reliable Performance High Thermal Resistance And Durability Fireclay Brick For Industrial Applications

Alkali Resistance: High

Moisture Resistance: High

Maintenance: Low

Flexural Strength: High

Can be used as kiln fired clay bricks

Competitive fire clay bricks price

High performance fireclay bricks price

Technical Parameters:

Product Name	Reliable Performance High Thermal Resistance And Durability Fireclay Brick For Industrial Applications
Alkali Resistance	High
Installation	Easy
Weight	2 Kg
Al ₂ O ₃ Content	≥38%
Refractoriness	1750
Maintenance	Low
Surface	Smooth
Size	230x114x65mm
Color	Yellow

Applications:

The fireclay bricks are widely used in various industries such as metallurgy, ceramics, construction, and chemical engineering. The product is highly durable and long-lasting, which makes it an ideal choice for high-temperature applications. The smooth surface and high flexural strength of the bricks make them easy to install and use in different applications.

The fireclay refractory bricks are available at a reasonable price range of 200-800 USD, depending on the model and quantity ordered. The minimum order quantity is 1 ton, and the payment terms accepted are TT and L/C. The product

has a supply ability of 2000 tons per month, and the delivery time is around 10-20 days. The packaging details include packing on wooden pallets, with a water-proof cover and tightened with plastic/steel bandages.

The fireclay bricks find various application occasions and scenarios, including:

Metallurgical industry - for lining furnaces, kilns, and other high-temperature equipment.

Ceramics industry - for lining kilns and furnaces used in the production of ceramic products.

Construction industry - for lining chimneys, fireplaces, and other high-temperature equipment.

Chemical engineering industry - for lining high-temperature reactors and other equipment used in chemical processing.

In summary, the Rongsheng Xinwei fireclay bricks are a high-quality, durable, and long-lasting product that is widely used in various industrial applications. The product is available at a reasonable price range and comes with ISO certification. So if you are looking for a reliable, high-quality fire clay brick, the Rongsheng Xinwei fireclay refractory is definitely worth considering.

Support and Services:

Our Fireclay Brick product comes with comprehensive technical support and services to ensure that our customers get the most out of their purchase. Here are some of the technical support and services we offer:

- Pre-sales consultation to help customers determine the best fireclay brick product for their specific needs and requirements
- On-site technical support to assist with installation and usage of our fireclay brick product
- Regular maintenance and inspection services to ensure the longevity and optimal performance of our fireclay brick product
- Troubleshooting and repair services in case of any issues or concerns with our fireclay brick product

Our team of experts is always ready to provide timely and efficient technical support and services to our customers, ensuring their satisfaction and peace of mind.

Packing and Shipping:

Product Packaging:

Fireclay Bricks will be packed in wooden pallets

Each pallet will contain 400 fireclay bricks

The pallets will be wrapped in plastic for protection

Shipping:

We offer worldwide shipping for our Fireclay Bricks

Shipping costs may vary depending on the destination and quantity ordered

Please allow 3-5 business days for processing and handling before shipping

Once shipped, delivery times may vary depending on the destination

Please inspect the product upon delivery and report any damages or issues within 48 hours

FAQ:

Q1: What is the brand name of the Fireclay Brick product?

A1: The brand name of the Fireclay Brick product is Rongsheng Xinwei.

Q2: What are the different models of Fireclay Brick available?

A2: The different models of Fireclay Brick available are SK-30, SK-32, SK-34, and SK-35.

Q3: What is the certification of the Fireclay Brick product?

A3: The Fireclay Brick product is ISO certified.

Q4: What is the minimum order quantity for the Fireclay Brick product?

A4: The minimum order quantity for the Fireclay Brick product is 1 ton.

Q5: What are the packaging details for the Fireclay Brick product?

A5: The Fireclay Brick product is packed on wooden pallets, with a water-proof cover, and tightened with plastic/steel bandages.
