

Refractory Fireclay Brick Tile High Fire Resistance And Mgo Content 0.5-1.5% For High Performance

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou, Henan, China
- Brand Name: Rongsheng Xinwei
- Certification: ISO Certification
- Model Number: SK-30, SK-32, SK-34, SK-35
- Minimum Order Quantity: 1 Ton
- Price: 200-800 USD
- Packaging Details: Packed on wooden pallets, with water-proof cover, and tightened with plastic/steel bandages
- Delivery Time: 10-20 Days
- Payment Terms: TT; L/C
- Supply Ability: 2000 tons /month

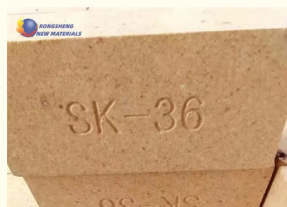

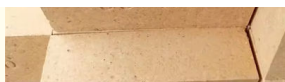

Product Specification

- Texture: Smooth
- Durability: Long-lasting
- Color: Yellow
- Alkali Resistance: High
- Moisture Resistance: High
- Size: 230x114x65mm
- Al₂O₃ Content: ≥38%
- Weight: 2 Kg
- Highlight: **High Fire Resistance Fireclay Brick,
High Performance Fireclay Brick,
Mgo Content Fireclay Brick**

Product Description

Product Description:

One of the key features of our fire clay brick is its yellow color, which will add a touch of aesthetic appeal to any construction or renovation project. But more importantly, our fire clay brick has an Al_2O_3 content of $\geq 38\%$, which makes it incredibly durable and resistant to thermal shock.

Another important attribute of our fire clay brick is its high alkali resistance. This means that it is able to withstand exposure to alkaline substances without suffering any damage or degradation. This makes it a great choice for use in industrial applications that involve the use of chemical and corrosive substances.

Our fire clay brick also has a Mgo content of 0.5-1.5%, which helps to improve its strength and durability. This makes it an ideal choice for use in high-stress applications such as furnaces, kilns, and ovens.

Finally, our fire clay brick has a high flexural strength, which means that it is able to resist bending and breaking under pressure. This makes it a great choice for use in applications that require a high degree of structural integrity.

Overall, our fire clay brick is a reliable and durable choice for anyone looking for a high-quality fireclay refractory. Its red color, high Al_2O_3 content, alkali resistance, Mgo content, and flexural strength make it the ideal choice for a wide range of industrial and construction applications.

Features:

Product Name: Refractory Fireclay Brick Tile High Fire Resistance And Mgo Content 0.5-1.5% For High Performance

Maintenance: Low

Product Category: Fireclay Brick

Size: 230x114x65mm

Surface: Smooth

Efractoriness: 1750

Our fireclay refractory bricks are of high quality and have a smooth surface. These low maintenance fireclay refractory bricks are perfect for any application that requires high heat resistance. With a efractoriness of 1750, these fireclay refractory bricks are built to last. Get the best fire clay bricks price for your project today!

Technical Parameters:

Product Name:	Refractory Fireclay Brick Tile High Fire Resistance And Mgo Content 0.5-1.5% For High Performance
Color:	Yellow
Texture:	Smooth
Surface:	Smooth
Size:	230x114x65mm
Al_2O_3 Content:	$\geq 38\%$
Moisture Resistance:	High
Flexural Strength:	High
Alkali Resistance:	High
Maintenance:	Low

Applications:

These fireclay bricks are ISO certified, ensuring their quality and durability. They are manufactured in Zhengzhou, Henan, China, and have a minimum order quantity of 1 ton. The price range for these bricks is between 200-800 USD, depending on the model and quantity ordered.

These bricks are perfect for a wide range of industrial applications, including blast furnaces, hot blast stoves, heating furnaces, power boilers, and other high-temperature industrial furnaces. They are also suitable for use in glass kilns, cement kilns, and other high-temperature kilns.

Due to their high alkali resistance, these bricks are well-suited for use in environments with high alkaline content. Their smooth texture and low maintenance requirements make them easy to clean and maintain, and they are known for their long-lasting durability.

These fireclay bricks are packed on wooden pallets, with a water-proof cover, and tightened with plastic/steel bandages. They have a supply ability of 2000 tons/month and a delivery time of 10-20 days.

If you're looking for a reliable and long-lasting fireclay brick, Rongsheng Xinwei's fireclay bricks are an excellent choice. You can order them online or contact the manufacturer directly for more information.

Support and Services:

Our Fireclay Brick product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experts is available to provide technical assistance, including guidance on installation, operation, and maintenance of the product. We also offer on-site inspections and testing to identify any potential issues and recommend solutions to improve performance. Additionally, we provide training programs and educational resources to help customers maximize the benefits of our Fireclay Brick product. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

Fireclay Bricks will be packed in strong wooden pallets

Each pallet will be securely wrapped with plastic film

The number of bricks per pallet will depend on the size and weight of the bricks

The pallets will be marked with the product name, size, and weight

Shipping:

Fireclay Bricks will be shipped via truck or ocean vessel

Delivery time will depend on the destination and shipping method

Shipping cost will be calculated based on the quantity and destination

Customers will be provided with a tracking number to monitor the shipment

FAQ:

Q: What is the brand name of the fireclay brick?

A: The brand name of the fireclay brick is Rongsheng Xinwei.

Q: What are the different models of fireclay brick available?

A: The different models of fireclay brick available are SK-30, SK-32, SK-34, and SK-35.

Q: Is the fireclay brick certified?

A: Yes, the fireclay brick is certified with ISO Certification.

Q: Where is the fireclay brick manufactured?

A: The fireclay brick is manufactured in Zhengzhou, Henan, China.

Q: What is the minimum order quantity for the fireclay brick?

A: The minimum order quantity for the fireclay brick is 1 ton.

Q: What is the price range for the fireclay brick?

A: The price range for the fireclay brick is between 200-800 USD.

Q: What are the available payment terms for the fireclay brick?

A: The available payment terms for the fireclay brick are TT and L/C.

Q: What is the supply ability of the fireclay brick?

A: The supply ability of the fireclay brick is 2000 tons per month.

Q: What is the delivery time for the fireclay brick?

A: The delivery time for the fireclay brick is between 10-20 days.

Q: How is the fireclay brick packaged for delivery?

A: The fireclay brick is packed on wooden pallets, with a water-proof cover, and tightened with plastic/steel bandages.
