

Temperature Oxidation Resistance Global Supply For Steel Making Graphite Electrode

Our Product Introduction

for more products please visit us on bricksrefractory.com

Basic Information

- Place of Origin: Zhengzhou, China
- Brand Name: Rongsheng Xinwei
- Certification: ISO9001
- Model Number: UP HP UHP
- Minimum Order Quantity: 1 Ton
- Price: 200-800 USD
- Packaging Details: Standard export carton/plywood crate
- Delivery Time: 20-30 Days
- Payment Terms: TT; L/C
- Supply Ability: 2000 tons /month

Product Specification

- State-of-the-Art Manufacturing Facility: Our Factory Is Equipped With Cutting-edge Technology And Automated Production Lines That Ensure The Highest Quality Standards.
- Wide Range Of Applications: Our RP, HP, And UHP Graphite Electrodes Cater To Various Power Levels Of Furnaces, Providing Flexibility For Industries Like Steel Production, Ferrosilicon Alloy Smelting, And Even In The Recycling Sector.
- Product Category: Graphite Electrode
- Superior Conductivity: Our Graphite Electrodes Are Made From Premium-grade Needle Coke And Pitch, Ensuring High Electrical Conductivity And Efficient Melting Processes.
- Shipping: By Courier, Air, Or Sea Depending On Customer Preference.

Product Description

Product Description:

Features:

Product Name: Graphite Electrode

Packaging: Standard export carton/plywood crate with customized shipping mark and QC Department.

Professional Experience Technical Team: Our technical engineers have many years of experience to meet different customers' product quality requirements.

Strong Global Presence: We have successfully collaborated with major steel manufacturers and metallurgical companies around the world, earning a reputation for reliability and quality.

High Thermal Shock Resistance: Designed to withstand extreme temperature variations, our electrodes offer superior thermal shock resistance.

Technical Support and After-Sales Service: Our team of experts provides comprehensive technical support and after-sales service.

Key Search Terms: graphite electrode companies, graphite electrode price per ton, high power graphite electrode

Technical Parameters:

Product Category	Graphite Electrode
Customizable Solutions	We offer custom solutions tailored to the specific power and size requirements of your furnace.
Shipping	By courier, air, or sea depending on customer preference.
Length & Diameter & Permissible Deviation of Graphite Electrode	Diameter of electrodes: from 75 to 800mm. We can produce various specifications in accordance with customer requirements.
Wide Range of Applications	Our RP, HP, and UHP graphite electrodes cater to various power levels of furnaces, providing flexibility for industries like steel production, ferrosilicon alloy smelting, and even in the recycling sector.
Superior Conductivity	Our graphite electrodes are made from premium-grade needle coke and pitch, ensuring high electrical conductivity and efficient melting processes.
Technical Support and After-Sales Service	Our team of experts provides comprehensive technical support and after-sales service.
Advanced Equipment	We have advanced equipment that improves productivity and mass production.
Packaging	Standard export carton/plywood crate with customized shipping mark and QC Department.
State-of-the-Art Manufacturing Facility	Our factory is equipped with cutting-edge technology and automated production lines that ensure the highest quality standards.
UHP grade graphite electrodes	We offer UHP grade graphite electrodes.
Price of graphite electrode	Price is dependent on various specifications and customer requirements. Please contact us for a quote.
Ultra-high power graphite electrode	We offer UHP graphite electrodes that cater to ultra-high power levels of furnaces.

Applications:

Our RP, HP, and UHP arc furnace ladle furnace graphite electrodes are designed to withstand extreme temperature variations, offering superior thermal shock resistance. This makes them ideal for use in electric arc furnaces (EAF) and ladle furnaces, which require high power graphite electrodes for efficient steelmaking processes.

Our electrodes come in standard export cartons or plywood crates, with customized shipping marks and quality control department checks to ensure safe delivery to your destination. We also offer customizable solutions tailored to the specific power and size requirements of your furnace.

At Rongsheng Xinwei, we pride ourselves on our fast response time and dedicated sales and support teams, available

24/7 to answer your queries and provide detailed information about our products. We accept payment terms of TT and L/C, with a delivery time of 20-30 days.

Support and Services:

Our technical support team is available to provide assistance with any questions or concerns regarding the use of our graphite electrodes. We offer a range of services, including:

Technical consultation
On-site training and installation
Product testing and analysis
Customized solutions and recommendations
Maintenance and repair services

We are committed to ensuring the highest level of customer satisfaction and providing reliable and efficient support to help our customers optimize their operations with our graphite electrode products.

Packing and Shipping:

Product Packaging:

Our Graphite Electrode product is carefully packaged to ensure safe transportation and delivery. The electrodes are wrapped in protective materials and placed securely in wooden crates to prevent damage during shipping.

Shipping:

We offer fast and reliable shipping options for our Graphite Electrode product. Once your order is placed, we will work to ensure prompt delivery to your desired location. We use trusted shipping carriers and provide tracking information so you can monitor the status of your order.

FAQ:

Q1: What is the brand name of the Graphite Electrode product?

A1: The brand name of the Graphite Electrode product is Rongsheng Xinwei.

Q2: What is the model number of the Graphite Electrode product?

A2: The model number of the Graphite Electrode product is UP HP UHP.

Q3: What certification does the Graphite Electrode product have?

A3: The Graphite Electrode product has ISO9001 certification.

Q4: What is the minimum order quantity for the Graphite Electrode product?

A4: The minimum order quantity for the Graphite Electrode product is 1 ton.

Q5: What is the price range of the Graphite Electrode product?

A5: The price range of the Graphite Electrode product is between 200-800 USD.

Q6: What are the available payment terms for the Graphite Electrode product?

A6: The available payment terms for the Graphite Electrode product are TT and L/C.

Q7: What is the supply ability of the Graphite Electrode product?

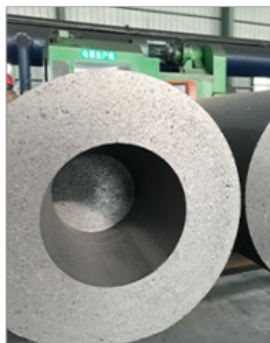

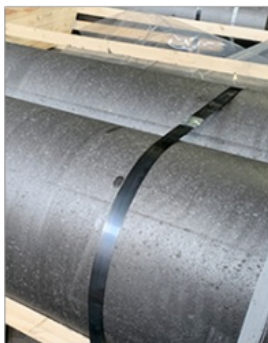

A7: The supply ability of the Graphite Electrode product is 2000 tons per month.

Q8: What is the delivery time for the Graphite Electrode product?

A8: The delivery time for the Graphite Electrode product is between 20-30 days.

Q9: What are the packaging details for the Graphite Electrode product?

A9: The packaging details for the Graphite Electrode product are standard export carton or plywood crate.
